FOR IMMEDIATE RELEASE
January 15, 2009

Janet Boland, Ashtabula County 9-1-1 Coordinator, would like to advise the public that she does not expect any interruption of Ashtabula County's 9-1-1 service during the installation of a generator backup for Geneva Police Department, scheduled for Monday, January 19.

However, the system is prepared for the unexpected.

"If we do experience problems during the generator switch-over, the 9-1-1 System is designed and equipped to handle this type of upgrade," Boland said.

For more information about the 9-1-1 System, contact Boland at (440) 576-3795.
